

Onset Technology raises \$2m

Onset Technology raises \$2m

Onset develops and markets message transmission and conversion software solutions.

Tsafrir Bashan 30 Sep 02 14:48

Start-up [Onset Technology](#) has raised \$2 million from Edouard Cukiermans Catalyst Venture Partners. The round was held under the same terms as the previous round completed in December 2001, in which Onset raised \$3.5 million from Challenge Fund - Etgar, Intel Communications Fund, Poalim Electronic Communications, Hollinger Digital, MAG Technology and FLV Fund.

Onset develops and markets message transmission and conversion software solutions. The company's technology converts all types of messages – fax, voice, e-mail, and attached files – to a single format, regardless of the medium or standard.
