

02/10/22: Interview with CNN Türk on the recent normalization between Turkey & Israel

Our Senior Partner Lisya Bahar Manoah had the pleasure of being interviewed by CNN Türk! Having grown up in Turkey & living and working in Israel for over a decade now, bringing the two countries together and creating synergies, especially in the scope of hightech investments is very close to Lisya's heart.

We can proudly say that we enjoy a dear partnership with Turkey at Catalyst Funds for several years. We are looking forward to seeing the steady development of a long, deep and nourishing relationship between Israel and Turkey.
